SUMMARY

As a proficient developer with **4+ years** of experience in **CORE PHP** and **Laravel** development, I am seeking a position that allows me to advance and grow. I look forward to contributing my abilities to a team that values innovation and excellence.

PROFESSIONAL EXPERIENCE

The SoftCube

Sr. BACKEND DEVELOPER

MAR, 2023 - Present

RESPONSIBILITIES

- As a proficient technical expert in PHP and Laravel development, I spearhead the team in constructing intricate web applications, reporting directly to the Head of Department.
- Vigilantly monitor project progression, making timely adjustments to ensure optimal productivity and on-time project completion.
- Collaborate with the sales team to devise sprint plans for projects, ensuring clients are informed and up-to-date.
- Segment the project into milestones, design the database architecture, allocate resources, and ensure that the team meets project milestones and deadlines.
- In addition to resolving conflicts, I make informed decisions concerning technical approaches, resource allocation, and project priorities.
- Provide mentorship and guidance to junior team members, facilitating their skills enhancement and career advancement.

CreaZ Solutions (Pvt) Ltd

Sr. PHP, LARAVEL DEVELOPER

APR, 2022 - MAR, 2023

RESPONSIBILITIES

- Assigning the tasks and responsibilities based on team members' strengths and areas of expertise while reporting directly to the Project Manager.
- Managed company brand websites and custom projects for clients effectively.
- Developed and maintained an internal Project Management System/CRM to streamline processes.
- Providing guidance and feedback to junior team members to help them develop their skills.

CCODEZ (Pvt) Ltd

Sr. PHP DEVELOPER

FEB, 2021 - MAY, 2022

RESPONSIBILITIES

- Scheduling a meeting with the HOD to discuss software development.
- Transform project modules into milestones to ensure that the project is completed on schedule.
- Hold frequent one-on-one meetings to provide feedback and establish objectives.
- Encourage open communication within the team, delegate tasks, and provide progress updates.

HnH Soft Tech Solutions Pvt (Ltd)

PHP DEVELOPER

OCT, 2019 - JAN, 2021

RESPONSIBILITIES

- Web application development according to the client's specifications.
- Collaborating with the team lead to enhance web application development.

KEY ACHIEVEMENTS

- Developed a complete **ERP system** for "**Residential and Commercial Projects**" consisting of modules (Operations, Land, Inventory, Finance, HRM, Reporting, Invoices, and Bank Vouchers).
- Developed an "**Online Taxi Booking Web App**" with Google Maps API integration for seamless pick-up/drop-off selection considering luggage, suitcases, passengers, and distance-based rates. Dynamic mechanism of rent calculation. Integrated secure stripe payment processing.
- Developed a web-based "**Project Management System/CRM**" with complete tools for internal organization use to manage projects, multiple tasks within each project, manage deadlines, specifically manage projects, and complete efficiently by prioritizing. And show leads from multiple websites.
- Developed an **ERP system** for "**Security Guards**" that highlights security guards, clients, and inventory locations on a map with a filter for tracking. Modules included (Guards, Clients, Finance, Inventory, HRM).
- The website for "**Watching and Uploading Gaming Videos**" is built using the Laravel framework with specific features in mind. Features such as users can add and watch videos, skits, follow, unfollow, like, dislike, comment, reply, ads on videos, and video recommendations and also can share videos and skits on **social media**.
